EDUCATION

M.S. in Computer Science, **Midwest Technical University**, Chicago, IL   2026
- Coursework: Machine Learning, Databases, Distributed Systems

B.S. in Computer Engineering, **Lakeshore State University**, Evanston, IL   2024
- Minor/Certificate: Applied Mathematics
- Honors/Awards: Dean's List, Engineering Scholarship Recipient

EXPERIENCE

Software Engineer, **Blue Horizon Technologies**, Chicago, IL   July 2024 - Present
- Designed and implemented backend services in Python and Java to support internal analytics tools.
- Collaborated with cross-functional teams to improve system reliability and reduce processing latency.

Technology Intern, **Northstar Consulting Group**, Remote   May 2023 - August 2023
- Assisted in developing data pipelines and validating data quality for client reporting solutions.
- Produced technical documentation and presentations for internal stakeholders.

PROJECTS

Inventory Optimization System, Remote   January 2025 - April 2025
- Built a forecasting model to predict inventory demand using historical sales data.
- Created visual dashboards to communicate model results and operational insights.

Natural Language Search Tool, Remote   June 2024 - September 2024
- Developed a semantic search prototype using text embeddings and cosine similarity.
- Demonstrated improved query relevance compared to keyword-based search approaches.
